

MANUAL DNA EXTRACTION

innuPREP DNA Mini Kit 2.0
(Art. No. 845-KS-1042010/050/250)

- Optimized standard protocols and additional protocol for DNA extraction from whole blood available

innuPREP Plasmid Midi Kit
(Art. No. 845-KS-5043010)

- Increased efficiency for low- and high-copy plasmid DNA purification
- Efficient endotoxin removal procedure with DNA precipitation
- Sample size: up to 100 ml of bacteria culture

innuPREP SE HMW DNA Kit (m)
(Art. No. 845-KS-8001010/050)

- Optimized Protocol for the extraction of high-molecular-weight DNA (>200 kb)
- Reliable performance on long-read systems e.g. Oxford Nanopore Technologies

AUTOMATED SMART EXTRACTION ON KINGFISHER™ FLEX (96)

innuPREP SE Blood & Eukaryotic Cells UHMW DNA Kit - KFFLX (Art. No. 845-KF-4096096/480)

- Automated workflow (external erythrocyte lysis) for the extraction of ultra high-molecular-weight DNA (>200 kb)
- Optimized for samples from up to 5 ml whole blood and eukaryotic cells pellets

innuPREP SE Blood HMW DNA Kit - KFFLX (Art. No. 845-KF-4196096/480)

- Completely automated workflow for the extraction of high-molecular-weight DNA (~100 kb)
- Optimized for samples from up to 200 µl whole blood

innuPREP SE Tissue HMW DNA Kit - KFFLX (Art. No. 845-KF-4296096/480)

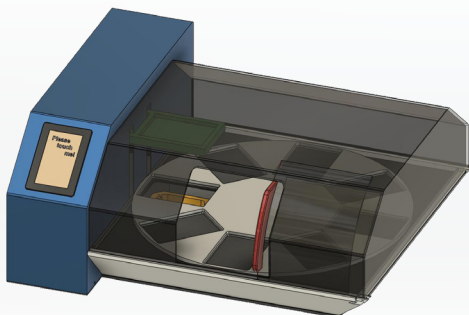

- Completely automated workflow for the extraction of high-molecular-weight DNA (~100 kb)
- Optimized for samples such as mouse tails or other tissues

innuPREP SE Bacterial Cells & Yeast HMW DNA Kit - KFFLX (Art. No. 845-KF-4396096/480)

- Completely automated workflow for the extraction of high-molecular-weight DNA (~100 kb)
- Optimized for samples such as bacterial and yeast cell pellets

DNA EXTRACTION DEVICE FOR SMART EXTRACTION

BRAND NEW
View prototype at our booth

- Automated DNA extraction system combined with a unique extraction technology
- Very user-friendly and walk away principle
- Up to 96 samples per run

Visit us at Analytica in Munich in Hall A3 at booth no. 111!
